

# Utkarsh Raj

## Full Stack Web Developer

### PROFESSIONAL SUMMARY

Accomplished Full Stack Web Developer with expertise in the MERN stack, specializing in designing efficient Node.js and Express.js server-side APIs. Proficient in using Generative AI and learning new technologies swiftly. Demonstrates exceptional collaboration skills in building scalable, reliable web applications with a focus on software excellence.

### PROJECTS

#### 1. OmniFood | |

##### JavaScript | Responsive Web Design | HTML5 | CSS3

- Developed a responsive food website using React for the front-end and Node.js, Express.js for the backend, ensuring seamless integration.
- Implemented personalized user experiences utilizing MongoDB, enhancing engagement with dynamic features like meal plans and recipe recommendations.
- Managed crucial functionalities such as order management, payment processing, and real-time updates that cater to both user and admin needs.

#### 2. Udemy-Clone | |

##### React | Redux | Node.js | MongoDB | Express.js |

##### JavaScript | Responsive Web Design

- Designed and developed a comprehensive web application similar to Udemy using the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Integrated dynamic routing and a video player for enhanced user engagement and experience.
- Collaborated to implement business account support along with responsive design with a focus on scalability and performance.

#### 3. FinanceFlow | |

##### HTML5 | CSS3 | JavaScript | Responsive Web Design

- Developed a user-friendly interface using HTML, CSS, and JavaScript for efficient financial tracking.
- Implemented responsive design ensuring optimal performance on various devices and browsers.
- Integrated frontend components with backend services to manage expenses, investments, and salary inputs.
- Optimized the application for speed, performance, and scalability, improving user satisfaction.
- Conducted thorough testing and debugging to ensure reliability and stability of the application.
